Warning to all residents in Aina Haina and neighboring valleys. Aggressive homeless caucasian male, approximately 6ft tall, 200-220lbs, red hair, beard, approx 30-40 yrs old. This guy pulled a knife on me and another neighbor around 5pm on Wednesday evening on the corner of Nohu street and W. Hind Drive. He frightened my friend and her daughter while they were walking their dog only 20 mins prior to the knife incident. According to my friend, the guy intentionally blocked the sidewalk with his body and forced them to go around him in the street while mumbling something under his breath and laughed as they passed by. After hearing what happened I ended up running to the guy laying sprawled out on the sidewalk and decided to say something to the effect: "stop blocking the sidewalk and to pick up your stuff and leave." After a few minutes of heated arguing, the guy pulled out his knife threatening to charge at me. He ended walking off towards Kalaniana'ole Hwy out of sight and HPD arrived shortly afterwards. Statements were given, however it is unknown if the homeless guy is still in the area or if he will return. He has been seen hanging around the Library in Aina Haina Shopping Center, Foodland, the parking lot at Aina Haina Elementary School, and in front Long's Drug Store. HPD advised me to just call them the next time something like this happens, but it's just very disturbing to know this guy is roaming around our neighborhood. Please be cautious while on your walks and steer clear of this individual. I've been hearing from other people that they have seen this same guy acting erratically at the shopping center and that he likes to harass women.
